Little new content over the last couple of years

Its work items are done

The only WG action item left is the IXP Wish List

EIX-WG is too IXP centric - the interconnection community is more diverse than this

There is still a requirement for an Interconnection forum within the RIPE community

EIX-WG - Proposals to Move Forward

i n t e r n e t n e u t r a l e x c h a n g e

Propose to dissolve EIX Working Group

Create new BoF to reflect values of general interconnection rather than current European IXP focus

Need interim BoF organisers to create new charter

Interconnection community to reconvene at RIPE68
